PhD positions at TU Munich, School of Management

In the Logistics and Supply Chain Management group, we currently have an open position in the research area

"Digital Logistics and Business Analytics"/
"Operations Research and Machine Learning"

Ongoing research projects cover digital logistics, shared economy and transportation platforms, inbound logistics in the automotive industry and digital retail/e-commerce using data-driven methods. In cooperation with industry and academic partners, we conduct fundamental and applied research using Operations Research and Machine Learning. The group www.log.wi.tum.de offers an international working environment and is part of the Operations and Supply Chain Management department www.oscm.tum.de at TUM School of Management www.wi.tum.de and the DFG research training group "Advanced Optimization in a Networked Economy" www.adone.gs.tum.de .

Besides very good skills in English language and writing, candidates should have a Master of Science degree in Management, Mathematics, Statistics, Industrial Engineering or Computer Science and experience in programming and the use of Operations Research/Machine Learning methods.

Applications (cover letter, transcripts, and additional supporting documents, e.g. term paper or thesis) should be submitted electronically until **31.05.2019** to:

Prof. Dr. Stefan Minner
Logistics and Supply Chain Management
TUM School of Management, Technical University of Munich
Arcisstr. 21, 80333 Munich, Germany
